Schoolcomms
all together, smarter

**Bringing people together
to create a brighter future.**

For parents, there's a lot to remember and a lot they want to know, to ensure their child's on track and reaching their full potential.

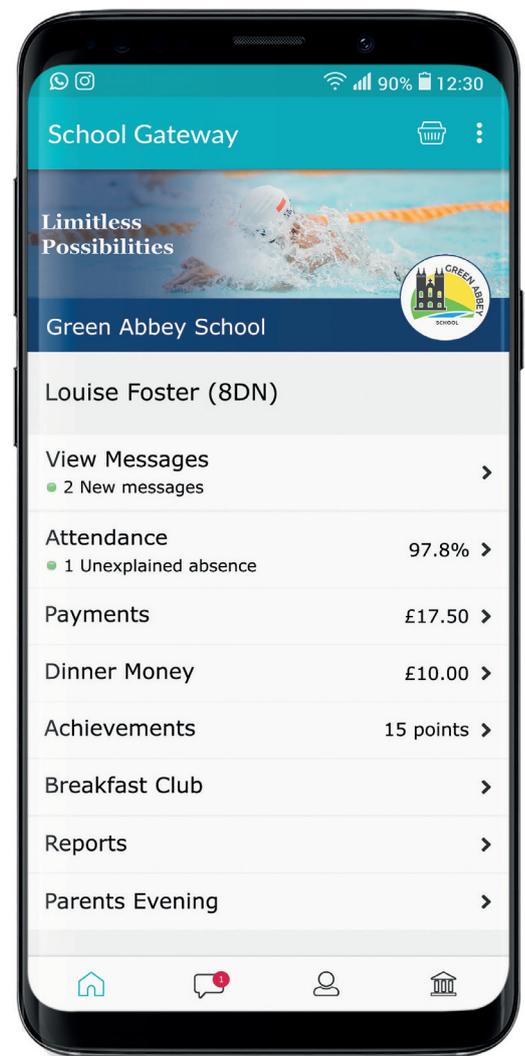

Good communication makes this so much easier and that's where we come in. Schoolcomms is a single, integrated system with the UK's leading parent app, that is seamless and simple to use.

We ensure parents are fully connected so their child can take full advantage of their learning day – and truly unlock their potential.

Our easy and cost-effective solutions for communication, online payments, parent engagement, club and meal management, are designed to save schools time, money and improve parent engagement. By providing modular solutions, we give schools the flexibility to add functionality as they need it, creating one system for all their parent interactions.

Where did it all start?

In 2003 we saw a missing link between messaging systems and the schools' MIS. Alongside Capita, we developed Schoolcomms to be fully integrated with SIMS. It began with messaging and gradually we developed more features and additional products, including our parent portal.

Today

Our one-system parent engagement solution is trusted by over 3,000 schools and 2,000,000 parents across the UK. We provide a sophisticated parent app integrating our features for messaging, reporting, club management, meal booking and cashless payments, so that parents can engage from anywhere, at any time. In January 2017, Schoolcomms was acquired by ParentPay. The merger brought together the two leading lights in the provision of web and mobile delivered payment and engagement services for schools and parents.

Our mission

Schoolcomms provides an easy and efficient way to engage parents closely with their child's education. Working with schools to continually develop and improve our products, we're able to ensure schools have all the tools they need to continue raising standards. We maintain an exceptional level of customer service throughout our relationship with schools. Our dedicated support team are on-hand to assist with any queries or issues, whether you're new to Schoolcomms or a long-standing customer.

What do our schools think?

“Once our parents see it they love it. It does encourage a more involved and open two-way passage of valuable information.”

Mark Haddleton – St Thomas à Becket Catholic Secondary School

“School Gateway genuinely gets me more engaged and involved at home with my daughter's schooling.”

Rohan (Parent) – Queen Elizabeth's

Manage all your parent interactions via one system

“The all-in-one School Gateway app eliminates the need for two or three separate systems for parents to have to remember passwords for.”
